# STEFANO GIOVE BIOGRAPHY

*“Each picture has a visible and concealed part: a photographer must show both”*.
This affirmation of Stefano Giove transmits the essence of his own work. His attention to details combined to an holistic vision makes him one of the best photographers amongst his contemporaries: a perfect shot in one click.
Back in 1982, Stefano set up his company, Click & Fashion Eyes on the Word in Milan and got hired at international level by some of the most iconic fashion companies: Gianni Versace, Giorgio Armani, Replay, Jean Paul Gaultier… He also started a long collaboration with some of the most exigent magazines: Vogue America (and other local editions), Elle, National Geographic, AD.
Years after years, Stefano has been developing his clients portfolio, exploring more and more sectors: Airlines, Formula 1, Off shore races, Hospitality, Food, Hospitals, Pharmaceutical, Malls.
In 1985, he meets Maurizio Gucci and becomes his official photographer. For the following 10 years, Stefano handles the Gucci group photographic portfolio while he continues to develop his own personal career, successfully providing world class services to an increasing number of international brands and VIP’s.
In 2004, he approaches Saudi Arabia during an initial one week study tour. Fascinated by the country, its traditions and its race into the future, he decides to move to Riyadh. During the next 16 years, Stefano works for the biggest retail and real estate groups in the GCC as well all the main premium hospitality chains.
Today, Stefano shares his time between Europe and the GCC, with a particular affection to Saudi Arabia.
